Welcome Alumni

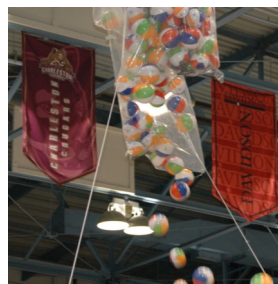

Welcome to the Ogeechee Tech Alumni Association. Each quarter we will be emailing a newsletter to help keep you abreast of the happenings with the Alumni Association and at OTC.

Starting with the December newsletter, we will have an Alumni Spotlight so be sure to go to the website and tell us your OTC story or that of a classmate. You may be featured in an upcoming edition. Also, if you have any suggestions for newsletter stories, want an update on a particular program, or have an idea that you would like to see the Alumni Association sponsor, please email Kathleen Kosmoski at kkosmoski@ogeecheetech.edu.

2008 Graduates Showered in Beach Balls

The Class of 2008 received a surprise on graduation night. After the ceremony was over, the graduates gathered in the rear of Hanner Fieldhouse on the Georgia Southern campus and were rained on by mini beach balls. The balls were compliments of the Ogeechee Tech Alumni Association and served as a congratulatory and welcoming present for all their hard work and dedication. In addition, the Ogeechee Tech Foundation provided each graduate with crackers and water in their graduation goody bag.

September 2008

Over 300 mini beach balls were released on the 2008 graduates.

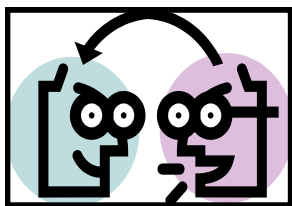

Name the Newsletter & Win

Name the alumni newsletter and win an OTC gift basket filled with OTC merchandise valued at \$50.

Entries are due by September 30, 2008. The winner will be announced by the end of September and in the next newsletter.

Please submit entries to kkosmoski@ogeecheetech.edu and include newsletter contest in the subject line.

Professional Development Workshops

One of the benefits of being a member of the Ogeechee Tech Alumni Association is the professional development workshops and seminars. In the coming months, the Alumni Association will be sponsoring several Professional Development Workshops specifically for our alumni. The workshops will be free to OTC alumni and offer a wide array of topics.

The purpose of the workshops is to provide continuing educational opportunities so that our alumni can stay abreast of the latest issues, technologies, and information in their respected fields. Some workshops will even offer continuing education units (CEU's) for those professions that require them.

To help us get started with this project, we need your input. Since these workshops are for you, our alumni we want to hear from you. Please email or call us (see below) and let us know the topics and information that interests you for the workshops and seminars.

Be sure to check out the OTC Website and the new Alumni Page!
